Insights from Data

REVIEW

HISTORY

Meets Specifications

Well done implementing the changes required by the previous review! 👍
I left you comments below and a couple of suggestions for further improvement in the report.

Congratulations on passing your first project and all the best for the rest of your data journey!

Completeness

Three insights are reported using one Dashboard.

Each insight has an explanation describing how the insight was reached from the data.

For each insight, provide a screenshot that shows what you found in the dashboard.

Awesome

You have provided explanations and screenshots to support your insights and included headers for each of your insights enhancing the readability and impact of your analysis. Good work!

Tip

You could include a short project description paragraph at the beginning of your report and a references section at the end giving your reader an overview of the scope of your analysis and a link to the dashboard you are using.

Correctness

Student's conclusions are correct based on the data.

The dashboard was used appropriately to find the information.
